

Claiborne Parish Family,

I am very proud of how our faculty, staff, and students have embraced all of the challenges that the Covid-19 pandemic has created. Teachers are currently teaching students at school while balancing teaching students at home. Students have adjusted to education in this unusual time and are still thriving. While we continue to follow all safety guidelines recommended by the Louisiana Department of Health and the CDC, the reality of growing numbers both nationally and statewide cannot be ignored. It is our intention in Claiborne Parish to continue to teach your children face to face as long as is safely possible. However, if numbers continue to increase it may become necessary to go totally virtual, at some point, for a period of time. Please begin to think about any child care arrangements you may need to make if this becomes a reality. Again, we are not anticipating going virtual in the near future, but we want you to be prepared if this becomes necessary. As always, the safety of your children is our top priority!

Sincerely,

William Kennedy
Superintendent
